

ICS® DIAMOND CHAINS

DIAMOND CHAIN TECHNOLOGY™

Diamond Chain Technology™ is a revolution in concrete cutting. Diamond segments laser-welded to a steel chassis grind through concrete and other aggregate material, eliminating kickback and the damage that percussive methods can cause. This remarkable property allows ICS® saws to plunge cut up to 25 inches (63 cm) into the hardest concrete or make perfectly square corners with no overcuts. The patent pending SealPro® design reduces wear and extends chain life. Available in a variety of configurations to match specific applications, there is an ICS diamond chain ready to meet any cutting challenge. As the inventors of Diamond Chain Technology™, ICS is committed to continually improving the quality and versatility of this important advance in concrete cutting.

ICS® DIAMOND CHAINS

FORCE4™ DIAMOND CHAIN TECHNOLOGY

From the company that revolutionized concrete saws comes a revolution in diamond chains: FORCE4™. Designed to be the strongest, longest lasting diamond chains ever made, the ProFORCE™ series delivers unrivaled performance in professional cutting applications.

ProFORCE™

A tough general purpose diamond chain that excels in common cutting jobs.

ProFORCE™ PREMIUM L

Delivering longer life in hard aggregate, this is the best choice when faced with the more demanding jobs.

ProFORCE™ PREMIUM S

Speed and strength in one chain. Built to cut fast in medium to hard concrete.

ProFORCE™ ABRASIVE

A heavy duty diamond chain that excels in the harshest cutting environments.

ProFORCE™ CORNER

Featuring a narrow kerf, this chain is for a single purpose: finishing corners. Important: ProFORCE™ Corner has a unique configuration that restricts its use to finishing corners only and should only be used by trained professionals sawing and drilling contractors.

TwinMAX™ SERIES

Designed to be used with the full line of ICS® gas powered chain saws (except 633F4), these chains offer the ultimate combination of versatility and affordability. Named for the patented double-bumper design, TwinMAX™ chains feature smooth cutting performance and easy installation.

TwinMAX™

A good general purpose chain that will handle 80% of cutting jobs, this diamond chain is designed to be affordable and user-friendly.

TwinMAX™ PLUS

Built to tackle harder materials and more steel, TwinMAX™ Plus is a long-lasting general purpose diamond chain.

TwinMAX™ ABRASIVE

A special diamond concentration and harder bond make this diamond chain perfect for cutting through highly abrasive aggregate like brick and sandstone.

PRO SERIES DIAMOND CHAIN

Engineered for use by professional sawing and drilling contractors, PRO series diamond chains stand up to the demands of heavy use.

PremiumPRO™

Designed specifically for applications involving hard aggregate or heavy steel, this chain offers longer life and the best overall value.

TwinPRO™

A great general purpose chain that offers the same easy installation as the TwinMAX™ series, but upgraded for serious professional cutting.

SoftPRO™

A fast cutting, economical chain for everyday use in non-abrasive aggregate material, such as some types of natural stone.
